Social skills and competences

I can easily adapt to multicultural environments (I've lived and acquired my second highschool degree in Galicia, Spain) and I do have relevant communication and social skills (former pop band leadsinger in 2003; former president of an academic cultural association, decART; actor at the city's theatre since 2003; active CouchSurfing member; University of Oporto official interuniversity correspondent, Microsoft Student Partner, and so on).

I believe +50% of my current abilities, capacities and competences were acquired in a team spirit/experiences-based environment and by ebooks and tutorials.

Organisational skills and competences

AIESEC leadership and entrepreneurship workshops, decART (academic cultural association) presidency, official bachelor representative, several blogs/wikis/forums/websites administrator.

Technical skills and competences

Advanced software handling from a designer/programmer perspective, both Mac OS X and Windows.

Computer skills and competences

Advanced level of Adobe and Mac OS X software handling, web development tools and SDKs, SSH, co-working networks and Google tools and apps.

Advanced programming skills on strict XHTML (both basic and Mobile Profile), PHP, MySQL, jQuery, CSS and Flash.

Artistic skills and competences

Typography, graphic and interface design, music (vocals, piano and electric guitar), photography (won several prizes) and Street Art.

Other skills and competences

Karate, rowing, surfing and car-hiking. Playing blues and reading RSS feeds are among my most favourite hobbies :)

I recently won an honorable mention at the Portsmouth Enterprise Challenge and am currently working on some more independent projects.

Driving licence(s)

B
